

TURN. TIGHTEN. DONE.

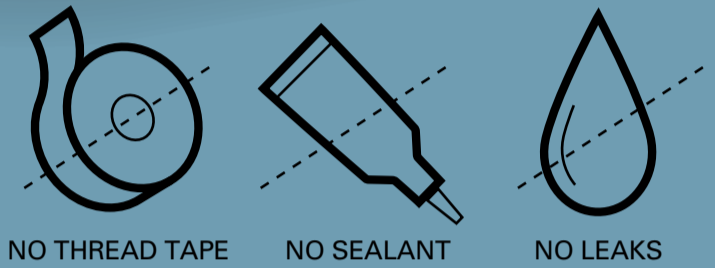

THE RAPID SEAL ADAPTER BY JOHNSON CONTROLS

is a 100% CPVC sprinkler head adapter, manufactured with Lubrizol BlazeMaster® compound, that connects sprinkler heads to fire protection piping systems.

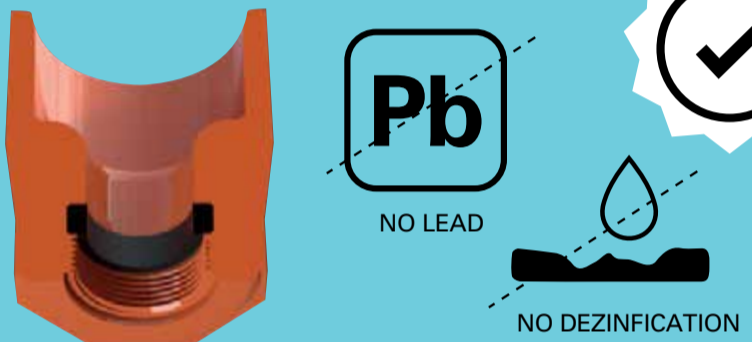

1 LEAK-FREE INSTALLATION

No thread tape or sealant ensures a fast and leak-free installation

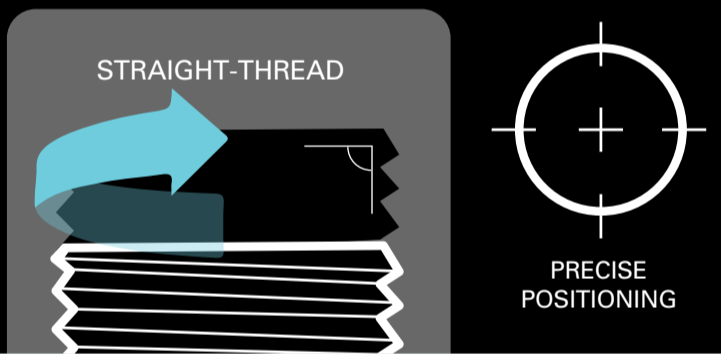

2 ALL-CPVC SOLUTION

The no lead, no brass design eliminates dezincification in hard water environments and complies with government low-lead pipe requirements

3 EASY TO FIT

Straight-thread adapter design allows more precise positioning of the sprinkler head deflector for accurate, even coverage

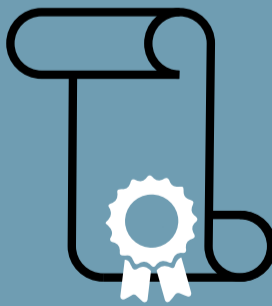

4 MULTIPLE STYLES AND SIZES AVAILABLE

Enabling the Rapid Seal Adapter to work with a range of sprinkler configurations. Including 90° elbows, straight adapters, and spigot options

5 INDUSTRY-LEADING WARRANTY

Our unique 10 year limited warranty exhibits our commitment to product quality worldwide*

**CERTIFIED
FOR
CONFIDENCE**
